			Kneitel (Oldenburg)

LET'S KISS N TELL

He was imported from Australia earlier this year 2016.

An unfortunate paddock injury put a halt on a very promising career under saddle. He had just completed his first starts at medium level & did not have a score under 65%. He had positive comments from international dressage gurus in the form of both Ulf Moller & Ingrid Kilmke who judged him at Dressage at the Stars.

He offers a stellar pedigree, his sire Sunny Boy being by Sandro Hit & out of the full sister to Don Schufro. So in the sire line you have two of the most successful Hanoverian Stallions represented in Sandro Hit & Donnerhall.

Kiss n Tell's Dam was by Metall, & this stallion brings to the line up the impressive genetics of Ferro, & a link to the likes of both Valegro & Uthopia. Kiss n Tell's Dam was out of a mare by Flemmingh, the Dutch super sire also known for giving that active hind leg which dressage breeders look for.
